

## Spool Holder

Classic storage for different spools. For us, this is an intermediate storage solution, but if you need many spools close by while fishing, you can, of course, hook it to the FlyBag Harness or attach it to something else.

Stack the Spool Holder

Simple locking the Spool Holder

Safe locking the Spool Holder

## Spool Holder | Material Spec

Base: Birch wood

Elastic Cord: 50% Polyester / 50% Rubber Threads

## **Sustainability**

### **Low impact**

From day one we aim to keep a low impact on our planet. To do this we put a lot of time in the design process to be able to produce FlyBag in Sweden with as little parts possible.

### **Hand made by retired fishermen**

Due to our design and development process we can make our products locally without even a factory line. We take great pride in the fact that our products now are assembled by retired fishermen in the heart of Sweden.

### **FlyBag LAB**

To support sustainable growth and development, we release FlyBag LAB. All FlyBag LAB products are produced in limited edition batches. When we see that the fly fishing community embraces a product, we elevate it to our FlyBag line up. This approach helps us minimize production waste while fueling our passion for developing quality fly fishing products.
